Let our students shine  
and inspire them  
to keep pushing boundaries

#### School Motto

*Grasping Principles, Cultivating Virtues;  
Maitri Karuna Mudita Upeksha*

#### School Introduction

The school sponsoring body is The Yuen Yuen Institute, which adopted Confucianism, Buddhism and Taoism as major principles. Through the integration of Buddhist education with positive ways of living, we aspire to deliver holistic education to every student. Guided by our education philosophy, we dedicate ourselves to the purification of mind and body, preservation of truth and character, propagation of generosity and mercy, the reliance on humanism and justice, the formulation of traditional virtues, and the promotion of charity and salvation of the masses. "Grasping Principles, Cultivating Virtues; Maitri Karuna Mudita Upeksha" is our school motto.

#### Beliefs and Mission

Let our students shine and  
inspire them to keep pushing boundaries

- Bachelor's Degree: **100%**
- Master's/ Doctor's Degree or above: **36%**
- Special Education Training: **22%**

# Principal's Message

As the principal of this school, I would like to share with you the distinctive features of our school, which not only represent our uniqueness but also reflect our commitment and efforts in education.

Education is not merely about rote learning, but a process of inspiring students' creativity and critical thinking. Therefore, our school not only emphasizes the transmission of knowledge but also places great importance on cultivating students' innovative abilities and critical thinking skills. We are committed to providing an interactive and challenging learning environment, where students can apply what they have learnt and develop problem-solving skills.

At the same time, our school focuses on holistic development. We believe that education is not only about academic knowledge, but should also pay attention to students' physical and mental well-being, as well as their moral character. In our school-based curriculum, we have purposefully incorporated elements of art, sports and social services, allowing students to fully develop their potential. Moreover, our school values students' emotional needs and provides professional counseling and support, enabling every student to grow in a caring and respectful environment.

In addition to the in-school curriculum and support, our school attaches great importance to international perspectives and cross-cultural exchange. After all, we live in an increasingly globalized world, and cultivating students' international competitiveness is crucial for their future. Therefore, our school offers a wide range of international exchange programs, organizing exchange trips from time to time, so that students can understand the cultures, languages and values of different countries. It broadens their horizons and develops their global citizenship.

Finally, I would like to emphasize the home-school collaboration at our school. Parents are the most important partners of our teachers. Our school values parental involvement and feedback. We regularly organize parents' days and workshops for parents, providing platforms for parents to understand the school's educational philosophy and their children's progress. Our school firmly believes that home-school collaboration is the key to students' growth and success. In the days to come, we hope to work hand in hand with you to provide the best education for our students and create a brighter future together.

I look forward to seeing you at CLCT!

Mr. Pang Ka Keung  
06/ 2024

*"Education is not merely about rote learning, but a process of inspiring students' creativity and critical thinking."*

Mr. Pang Ka Keung

## Curriculum Design

### Class Composition

To strengthen our care and support for junior secondary students, the school will divide students into smaller classes based on their learning abilities in Chinese, English, and Mathematics. Furthermore, teachers will adjust their teaching progress and strategies according to the diverse learning needs of students, in order to enhance the effectiveness of teaching and learning.

Offered Subjects

## DEVELOPMENT OF RELIGIOUS EDUCATION

The school promotes meditation education, cultivating students' focus, relaxation of body and mind, and enhancing their holistic well-being. The Buddhist Studies and Ethics and Religious Studies courses provide systematic meditation learning. Through year-round activities such as morning Buddha worship, morning assembly meditation, sutra copying, as well as Buddhist cultural programs such as "Wonderful Brahma Sounds," students can constantly experience Buddhist knowledge and atmosphere.

## DEVELOPMENT OF ARTISTIC EDUCATION

The school actively encourages students to participate in large-scale artistic events and engage in cultural exchanges and creative works on major art platforms, broadening students' artistic horizons and enriching their cultural literacy and artistic experiences. By participating in artistic activities, students can enhance their exploration and observation abilities, foster their creativity and imagination, and develop their artistic potential.

## TECHNOLOGY EDUCATION LEARNING DOMAIN

Technology education enhances students' problem-solving abilities and helps them apply their skills in new contexts. The junior secondary curriculum includes General Computer Studies, Design and Technology, Home Economics Technology and Living; the senior secondary offers five elective subjects, promoting diverse learning and future career development for students.

## SCIENCE EDUCATION DOMAIN

Science education cultivates a solid scientific foundation and literacy in students, as well as interdisciplinary knowledge and skills. Each subject organizes activities to stimulate students' interest in science, help them understand the things around, recognize the relevance of science to daily life, and appreciate the importance of science for social progress.

# School Characteristics

## STEAM Education Development

STEAM education integrates arts and mathematical knowledge, enabling a deeper understanding of the interconnectedness of different subjects. Experiential learning and problem-based learning enhance students' problem-solving abilities. In the future, STEAM education will focus on technological integration, international exchange, and community engagement, cultivating a global perspective and civic consciousness, and helping students become creative, problem-solving, and holistically-minded learners.

Donkey Car Course

Hong Kong Science Fair 2022

Virtual Cultural Tour Workshop on Chinese Heritage

## Healthy Campus

The school emphasizes the importance of students' resilience, emotional management, and interpersonal relationships. The Disciplinary and Counseling Team promptly addresses emotional issues, conducts preventive work, and regularly collects student feedback. Through counseling meetings and grade coordinator meetings, they communicate with class teachers and subject teachers, working with social workers to identify and support students' needs early, and prevent problems from arising.

Enhanced Smart Teen Project

Healing Handicraft Workshop

Smoke-free Elite Teens Programme

## Whole-person Education

The school is committed to nurturing well-rounded talents, offering more than 50 "whole-person learning" courses, including four categories: academic, arts and sports, interests, and services. With a focus on the six domains of education, the school encourages students' holistic development and provides more choices. These diverse and engaging activities not only enhance students' quality of life, but also help them find future directions, benefiting their mental health and resilience.

The school organized the "60th Anniversary Celebration Learning Exchange Tour" to celebrate the 60th anniversary of the school's founding. The activities integrated elements of STEAM education, discipline training, environmental conservation, animal welfare, service experience, cultural heritage, and social issues. Through these learning activities, the school aims to cultivate students' social and civic responsibilities, guide them to reflect on relevant issues, enhance their learning effectiveness, and shape their correct values.

Diamond Jubilee Learning Exchange Tour

## CLCT Stars

The school organizes "gifted" classes in Chinese, English, and Mathematics every Saturday, inviting the top 30 students (including S6) to participate. The curriculum is diverse, including academic enhancement, leadership development, and national education field trips. Over 110 students participate in the "CLCT Stars" program, with an attendance rate exceeding 95%, effectively enhancing the learning atmosphere on campus.

# Campus New Constructions

*In recent years, our school has been continuously updating the campus facilities, with the aim of providing teachers and students with a better learning and activity environment, and promoting students' academic, social and cultural development.*

01

## School Hall

The school hall cultivates students' inner peace and moral values, promotes academic exchange, and broadens their knowledge horizons. It inherits Buddhist culture, cultivates students' wisdom, compassion and moral concepts, and helps them become people of high moral character.

02

## General Office

The general office is the center of the school's administrative management. It provides a convenient place for students, parents and teachers to handle administrative affairs. Students and parents can seek help, raise questions, and receive necessary support and guidance here.

03

## Staff Room

The staff room is the workplace and exchange space for teachers, providing a quiet and focused environment. Teachers can prepare lessons, evaluate students' academic performance, discuss teaching methods and share resources with other teachers.

04

## School History Room

The school history room preserves and displays the school's history, collecting documents, photos, souvenirs and archives, and showcasing the school's development and achievements. The exhibits help teachers and students better understand the 60-year history of the school, and promote the inheritance and development of the campus culture.

05

## Multifunctional Activity Room

The multifunctional activity room provides flexible space configuration to host various activities and courses, such as seminars, workshops, dance, music performances, and art creation. With comprehensive indoor facilities, it offers students abundant learning and entertainment opportunities, promoting their all-round development and social interaction.

08

## Meditation Room

The school has invested 1.5 million Hong Kong dollars to build a meditation room, including a meditation hall and a tea room, promoting meditation education and enhancing students' physical, mental and spiritual well-being. The meditation room creates a solemn and tranquil atmosphere, allowing students to experience peace and joy, and elevating their spiritual and moral qualities.

07

## Library

Aiming at meeting students' learning needs, the school has built a brand new library, creating a comfortable and stylish ambiance. The library has a coffee corner with high tables and chairs, allowing students to read and study in a relaxing manner, and stimulating their interest in visiting the library.

06

## Media room

The school participates in the CLAP TECH program of the Hong Kong Jockey Club, fostering students' development in the field of creative media. The media room is a specialized learning environment that encourages students to engage in multimedia storytelling and production. Students can use multimedia technology to present vivid and interesting stories, demonstrating their innovation and imagination. The media room also promotes cooperation and exchange among students, enhancing their creativity and skills, and providing them with more opportunities to practise and improve their creative media work.

Admission to the Bachelor of Arts (Chinese Studies) at the Chinese University of Hong Kong

Ye Xuanfei  
Class of 2022-2023

Over 80% of our graduates are admitted to local and overseas tertiary institutions. With the guidance of our professional teaching staff, students are able to explore and identify the most suitable pathways for further studies and future careers that align with their interests and aspirations.

### Seamless 6-Year Curriculum and Structured Career Planning

Simulated Life Journey Experience Activity

We implement a comprehensive and coherent career planning programme throughout students' 6-year secondary education. This includes self-understanding, aptitude analysis, career exploration, workplace visits, internship experience, and exposure to higher education options, with the aim of helping students plan their future early on.

### "Dream Pursuit" Project – Guiding Students to Set Goals

"Dream Pursuit" Project: Electrical Engineering Internship

The Admissions and Careers Guidance team, together with form teachers and various school units, form a cross-departmental counselling group to provide early intervention. They assist students in establishing their academic and career directions through:

- Individual or group counseling sessions to set goals and formulate action plans for improvement
- Encouraging students to put their plans into practice, while providing timely guidance and support

### Thematic Experiences to Enrich Admission and Career Information

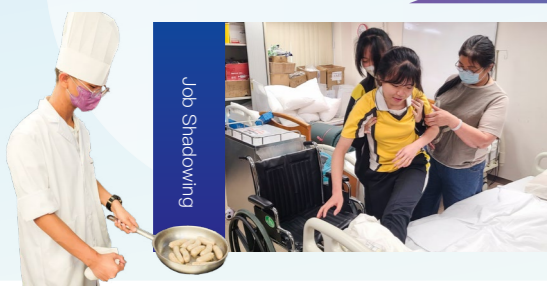

Students of Tourism and Hospitality visiting Shangri-La Hotel

The Admissions and Careers Guidance team collaborates with academic departments to organize thematic experiential activities and talks on further studies and career options, such as sports and fitness, hospitality and tourism, and entrepreneurship. This allows students to explore their interests and plans for the future.

Regular talks on higher education pathways, including Mainland China and Taiwan, as well as workshops on understanding programme requirements and setting goals which help raise students' motivation and preparedness.

### "Job Tasting Programme" to Broaden Workplace Exposure

Job Shadowing

We increase students' internship opportunities, enabling them to better understand different industries, work environments and expectations. This inspires them to work hard and meet future challenges.

We also partner with the Hong Kong Polytechnic University to host career talks covering fields like physiotherapy, nursing, mechanical engineering and hospitality management. This enhances students' awareness of various professions and the corresponding academic requirements, allowing them to plan ahead.

# Overseas Learning and Exchange Activities

Our school regularly organizes overseas exchange activities to broaden students' horizons. We have exchange programs with sister schools, and organize Mainland China study tours, allowing students to **gain a deeper understanding of the national conditions and latest developments**, and **enhance their national identity**. During long holidays, we arrange learning and exchange trips to promote collaboration between Hong Kong students and international youths, **expand their global perspectives**, and **inspire their potential**.

# Home-School Partnership

## 蘇秀雲女士

Chairperson of the Parent-Teacher Association,  
24th to 27th term

The school organizes a variety of activities and actively collaborates with external organizations, providing students and parents with numerous opportunities to broaden their horizons and learn different kinds of knowledge. As a parent, I have experienced the vitality of CLCT. The school's diverse teaching approaches enable each student to find their strengths and excel. Besides, I have witnessed and felt the profound gains made by the students, and deeply sensed the charm of this school!

## 黎倩玲女士

Chairperson of the Parent-Teacher Association,  
20th to 23rd term

I feel very privileged to have met a group of passionate and caring teachers, who often work late into the night for the sake of their students. I am deeply grateful for their selfless dedication. With the PTA, parents can gain a deeper understanding of the school's operations and educational philosophy, and can also become more closely connected to their children's learning environment. To fully leverage the function of the PTA, good home-school collaboration is essential. I hope that more parents will participate and support the school's affairs, jointly promoting the development of the school!

## S.1 Admission Information

### Application Submission Methods

1. Submit paper application form in person at the school
2. Submit online through the Education Bureau's "Secondary School Places Allocation (SSPA) e-Platform" (<https://esspa.edb.gov.hk/login?lang=en>)

### Documents required for Paper Application Submission

1. Our school's "Secondary One Self-allocation" admission application form
2. Secondary One Self-allocation Application Form (issued by the Education Bureau)
3. Photocopies of Primary 5 full-year and Primary 6 first-term report cards
4. Photocopies of certificates of extra-curricular activities/ service performance and other special talents
5. Photocopy of applicant's identity card or birth certificate
6. One self-addressed envelope with \$2.2 stamp
7. One recent photo

\*No primary school recommendation letter is required.

\*Submitted application forms and all documents will not be returned.

### Transfer Application for Secondary 2 to Secondary 6

Please complete the application form and visit our school in person to submit your academic transcripts, certificates, awards, and other relevant documents. If you meet the admission criteria of our school, we will arrange for you to take a written test.

Scan the QR code to download the application form.

Scan the QR code to access the "Secondary School Places Allocation Platform (eSSPA)."

### Announcement of Interview Arrangements

1. By mail
2. Uploaded on our school's website

Scan the QR code to access our school's website.

### Interview Format

1. Individual and group interviews
2. Multiple intelligences group interviews

### Announcement of Admission Results

1. Parents of successful applicants will be notified by phone and mail that their child has been included in the school's Secondary One self-allocation list.
2. The Education Bureau will announce the Secondary One school placement results.
3. If the applicant is not allocated to our school, they can try to apply as a transfer student.
